229125,Raebareli

Aspiring Software Engineer and 2nd-year CSE student at Rajiv Gandhi Institute of Petroleum Technology, deeply intrested in mastering full-stack web development and cybersecurity. Demonstrated technical initiative through the creation of a secure data-wiping application and a motorcycle ride-sharing platform. Committed to leveraging a strong analytical mindset and evolving skill set in AI/ML to contribute effectively to a fast-paced development team through an internship or entry-level position.

EDUCATION

BACHELOR OF TECHNOLOGY IN COMPUTER SCIENCE

RAJIV GANDHI INSTITUTE OF PETROLEUM TECHNOLOGY, 2024-28

- **RELEVANT COURSEWROK:** Data Structures & Algorithms (DSA), Object-Oriented Programming (C++/Java), Database Management Systems (DBMS), Computer Organization & Architecture
- **CGPA:** 8.3/10

HIGHER SECONDARY(CLASS XII)

ST.JAMES SCHOOL , ICSE (2022-23)

- Scored 91.4 % with focus on mathematics .
- Ranked 1st in class and among top 5% students in district

ACADEMIC PROJECTS

Apoha: Secure Data-Wiping Tool : <https://github.com/Prince4157/apohawipe.git>

- Built a cross-platform utility to permanently delete files, preventing recovery by forensic software.
- Implemented DoD 5220.22-M and Gutmann sanitization algorithms for secure data overwriting.
- Leveraged Python's os, shutil, and pathlib libraries for low-level file system manipulation and secure path handling.

Motopack (Bikers) – Social Platform for Motorcyclists

www.motopack.live

- Designed a Next.js/React web app enabling motorcycle enthusiasts to discover, plan, and share rides.
- Integrated Leaflet & OpenStreetMap for highly interactive, real-time route planning and navigation.
- Engineered secure live group chats and dynamic feed dashboards using Firebase Auth and Firestore.
- Implemented a custom event-driven "Hybrid Architecture" to seamlessly blend legacy vanilla JavaScript features into modern server-rendered React components.

SKILLS

- **Technical Skills:** Programming Languages: C, C++, Python, JavaScript, Kotlin, HTML5, CSS3 , Node.js.
- **Cybersecurity & Tools:** Ethical Hacking, Data Sanitization Algorithms (DoD 5220.22-M), Git/GitHub, Linux
- **Soft Skills:** Problem-Solving, Technical Communication, Team Collaboration, Adaptability, Ethical Integrity, and Attention to Detail

ONLINE COURSES

- **Completed JavaScript Tutorial Full Course – Beginner to Pro**
 - Mastered ES6+ syntax, asynchronous programming (Promises, Async/Await), and DOM manipulation
 - Deep understanding of Closures, Prototypes, Hoisting, and Higher-Order Functions.

ACHIEVEMENT

- Reliance Foundation Scholarship Awardee 2024-28
